# ABOUT THE COMPANY

**-ASEYH TEKNOLOJİ GRUBU-** is an international trading company focusing on supplying agricultural products from Russia and the countries of the Black Sea region to Asia-Pacific markets. We have been exporting for more than 5 years.

Our range of agro-commodities includes:

- Corn
- Wheat
- Flax
- Canola
- Sunflower
- Soya beans
- Barley
- Sorghum
- Buckwheat
- Oats
- Meal (soybean, sunflower, canola etc.)
- Soybean lecithin
- Fatty-acid distillate
- Extruded full-fat soybean
- Vegetable oils (soybean, sunflower, canola etc.)

# OUR MARKETS

Customers in Turkey, Japan, S. Korea, China, Vietnam and local customers all around Russia trust our high quality products.

We continue our efforts to expand our international sales coverage and sales channels.

# OUR PARTNERS

# FOOD-GRADE SOYBEANS

Soybeans are a widespread food product in the world. It is highly valued for its high protein content, so it is also used as a substitute for animal products.

Soy is most widely used in Japanese and Chinese, as well as in vegetarian cuisine. Soy has also found widespread use in the production of plant or vegetarian counterparts for animal foods.

**Soybeans contain:** protein (38 – 40 %), fats (18 – 20 %), carbohydrates (18 – 20 %), water (10 – 13 %), coarse fiber (5 – 7 %) and ash (5 – 7 %).

Monthly supply capacity – up to 10 000 tons

Delivery:

HS code: 1201900000

# FOOD-GRADE SOYBEANS

Quality indicators of some soybean varieties\*:

Soybean variety	Moisture (%)	Fat (%)	Protein (%)			Nitrogen solubility index (%)	Starch (%)		Weight of 100 beans (g)	Size
			Crude protein	Protein A	Protein B (total) (100)		Crude starch	Protein A		
Hikari	12.00	17.76	41.88	44.00	38.30	80.1	5.10	5.40	80.9	Class 1/15/16
Hyogo	10.70	18.00	40.00	42.40	36.87	79.1	6.41	7.01	80.8	Class 1/15/16
Haku	10.44	18.44	39.43	38.74	33.70	80.8	4.78	7.08	87.0	Class 1/15/16
Hakutsu	14.52	18.71	39.69	42.04	34.05	77.2	6.10	6.90	85.1	Class 1/15/16

\* The analyses were carried out in an independent Japanese laboratory by Mitsui & Co., Ltd. (2022).

# SOYBEAN MEAL

Soybean meal contains a wide range of minerals, amino acids, proteins and is one of the highest quality products of plant origin for feeding farm animals.

Indicator name	Normative standard
Color	Light yellow to light brown
Smell	Typical of soybean meal with no foreign smells (musty, moldy, putrid)
Moisture and volatile matter mass fraction, %	Not more than 12
Mass fraction of protein in terms of absolute dry substance, %	According to specification 48.0 – 50.0
Mass fraction of fat in terms of absolute dry substance, %	None 1.0 up to 2.0 inclusive
Urease activity (pH change in 30')	0.02-0.20
Fest infestation or signs of infestation	Not allowed
Impurities content (stones, glass, earth)	Not allowed
Storage period: in bulk	6 months
In packaging	12 months

Monthly supply capacity –  
up to 7 000 tons

# SOYBEAN LECITHIN

Monthly supply capacity –  
up to 45 tons  
Delivery:

200 kg

Lecithin is a high-quality natural product produced by soy processing. Food additive E322-S10 68417554-0102-2018. The product complies with the requirements of the HAC certification.

It is used in the production of margarine as an emulsifier of fat, in the confectionery industry - as a component of chocolate and chocolate glass, in the baking industry - as a plasticizer and moisture-holding surfactant component in the preparation of emulsions for lubricating of baking tins and sheets for pasta.

It is also used in medicine as a biologically active additive, in the production of cosmetics, paints, rubber, plastics and in the production of animal feed.

Indicator or name	Nominal standard
Visual appearance	Homogeneous fluid mass
Consistence	Homogeneous viscous liquid
Color	Dark brown
Smell	Typical of the raw material from which it is produced
Taste	Typical of the raw material from which it is produced
Mass fraction of substances insoluble in toluene, %	Not above 0.2
Mass fraction of substances insoluble in acetone, %	Not below 60
Mixture and volatile matter mass fraction, %	Not above 1.0
Acid number, mg KOH/g	Not above 35.0
Peroxide value, mmol of active oxygen per kg	Not above 10.0
Color number of a 10% solution in toluene, mg of iodine	Not above 80.0

**HIS code:** 2923200000

# FATTY-ACID DISTILLATE

Monthly supply capacity –  
up to 5 tons  
Delivery:

200 kg

The fatty-acid distillate is a product obtained in the production of soybean processing products. It is used for the production of soap, cutting fluids, non-food surfactants for technical products, in the petrochemical, oil refining, light, paint and varnish, chemical industries.

Indicator name	Relative standard
Visual appearance	Homogeneous fluid mass
Consistency at 20 °C	Semi-solid, heterogeneous
Color	Beige to dark brown
Smell	Typical of the fatty acids
Moisture and volatile matter, %	Not above 1.0
Acid number, mg KOH/g	Above 80
Non-fat impurities, %	Not contained
Peroxide value, mmol of active oxygen per kg	Not above 3.0

HS code: 3823191000

HS code: 1507909009

# BRANDED FOOD ITEMS

## SOYBEAN OIL

-Amur Peas- refined deodorized  
soybean oil in PET bottles.

Volume: 0.4 L, 1 L, and 1.5 L

Shelf life: 18 months

- Premium grade
- Made from non-GMO soybeans
- Contains vitamin E
- Rich source of Omega 3, 6, 9
- No cholesterol and preservatives
- Strict quality control
- Diploma of -100 Best Russian products- competition
- Ideal for frying, deep frying and salad dressing

The -Amur Peas- brand of vegetable (soybean) oils and  
packed edible soybeans.

Strict product quality inspection is ensured at all  
production stages.

from laboratory testing of raw materials according to the  
requirements of the State Standard of the Russian  
Federation (GOST) to final products.

All products are certified.

The Company has implemented ISO 22000 (HACCP)  
food safety management system

HS code: 1201900000

## SUNFLOWER RAPESEED OIL

-Amur Peas- refined deodorized  
winterized sunflower oil in PET bottles.

Volume: 1 L

Shelf life: 18 months

- Premium grade
- Contains vitamin E
- Rich source of Omega 9
- No cholesterol and preservatives
- Strict quality control
- Ideal for frying, deep frying and  
salad dressing

## PACKED EDIBLE SOYBEANS

Premium quality soybeans

Weight: 1 kg

Shelf life: 12 months

Benefits and Uses:

- 100% non-GMO soybeans
- High nutritional value, the protein content of 38%
- Eating after preliminary soaking and heat treatment
- Germination
- Cooking soups, side dishes, snacks
- Home-made classic soy milk and soy milk with  
taster/juice, 10% soy flour, soy sauce

# TRANSPORTATION PACKAGING

## SOYBEAN OIL

Net volume, liter	5.5	7	9
Bottles per carton, 20L	15	12	9
Carton weight, kg	5.5	11.0	14.0
Carton dimensions, mm	330x450x214	330x250x271	450x170x240
Cartons per 20' container	Calculated upon request	1071	930
Cartons per 40' container	Calculated upon request	2100	1,860

The bottled soybean oil and edible soy beans –Amur Pearl– are packed in ergonomic branded corrugated boxes made of three-layer cardboard. This package makes transportation and warehouse storage convenient, and also undergoes reprocessing, which contributes to preservation of the environment.

## SUNFLOWER RAPESEED OIL

Net volume, liter	7
Bottles per carton, 20L	10
Carton weight, kg	11.0
Carton dimensions, mm	300x400x214
Cartons per 20' container	1100

For retailers and retail distributors:

Bottled oil is shipped in 20' and 40' containers.

For OEM/private label clients:

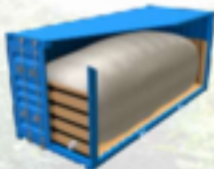

Oil in bulk for private labels is shipped in flex tank containers.

## PACKED EDIBLE SOYBEANS

Weight of packing, kg	7
Quantity per carton, 20L	10
Carton net weight, kg	10
Carton dimensions, mm	400x280x140

## OIL IN BULK

Flexitank containers	
Net weight, ton	21.5
